ABOUT ME

Hi, my name is Abhishek Pathak and I am from Lucknow. I completed my schooling from Christ Church College near Hazratganj(GPO), Lucknow and currently pursuing a B-TECH in computer science and engineering at the university of Lucknow new campus. I am a passionate and dedicated individual with a strong commitment to my studies. Right now, I am deeply immersed in learning web development and aspire to become a full-stack web developer with a focus on the MERN stack.

SKILLS

Technical Skills

- **Development:** Web Development [HTML, CSS, JavaScript] and currently learning Frameworks like NODE JS and EXPRESS JS.
- **Language:** JAVA

Non-Technical Skills

- Problem Solving
- Communication
- Time Management

EXPERIENCE

Self Learning Web Development and DSA

- Currently improving my web development skills which includes HTML, CSS, JavaScript and related frameworks.
- Practicing data structures and algorithms (DSA) in JAVA to enhance my problem-solving skills.
- Developing a personal portfolio website to showcase all my skills, projects and experiences.
- Also exploring Git and GitHub.

PROJECTS

1. **A Food Delivery Web Page**
   - Created a food delivery web page using HTML and vanilla CSS.
   - Added a smooth scrolling navigation and ensuring a responsive design for various screen devices.

2. **Weather App**
   - Created an interacted weather application using HTML, vanilla CSS and JavaScript and Express JS.
   - Implemented a search feature to fetch and display real time weather data from weather API.
   - Developed a responsive user interface for seamless user experience on different devices.

3. **Dynamic Quotes Website**
   - Developed a dynamic quotes website using HTML, vanilla CSS and JavaScript.
   - Implemented features to display random quotes fetched from an external API.
   - Used JavaScript to handle asynchronous data fetching and DOM manipulation.
