Summary

Aspiring Full Stack Developer with hands-on experience in building **scalable web applications** using **React.js, Node.js, Express.js, and MongoDB**. Passionate about **frontend & backend development, API integration, and performance optimization**. Strong **problem-solving skills** and a keen interest in developing **efficient and user-friendly applications**.

Technical Skills

Languages & Databases: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, Firebase, Java

Full-Stack Development: MERN Stack, RESTful APIs, Database Management

Frameworks & Libraries: React Hooks, Bootstrap, Tailwind CSS

Other Skills: Git, GitHub, Version Control, Cloud Deployment (Vercel, Netlify, AWS), Performance Optimization, Debugging, Scalability

Experience

Future Intern – Web Development Intern

Aug 2024 – Sep 2024

- Developed **5+ web applications**, including a landing page, portfolio, calculator, and to-do app
- Implemented frontend and backend features using **HTML, CSS, JavaScript, React.js, Node.js**.
- Optimized UI/UX, reducing **page load time by 30%** and increasing engagement by **25%**.
- Managed GitHub repositories and followed best practices for version control and **agile development**.

Achievements

- Smart India Hackathon (SIH) Sep 2024** – Developed **Ferti-Smart**, a **data-driven fertilizer recommendation system** selected in the internal hackathon round.
- Built an end-to-end full-stack solution using **HTML, CSS, Python**, and optimized it for scalability and efficiency.

Projects

Weather App (MERN Stack, API Handling, UI Optimization)

- Built a full-stack weather application using React.js, Node.js, Express.js.
- Integrated **real-time weather APIs** to fetch and display dynamic data within **<2 seconds latency**.
- Implemented responsive design for optimal user experience.

REST Countries API Project (React.js, API Fetching, State Management)

- Built a **React-based** web application that fetches **195+ country details** from the REST Countries API.
- Implemented **search & filtering**, improving **user data retrieval speed by 40%**.

Contact Management App (React.js & Firebase, Scalability)

- Developed a **contact management App** with **Firebase real-time database**, handling **500+ records**.
- Implemented authentication & authorization features for secure data access.
- Planning to integrate Copilot Kit for automated data handling.

Education

University Of Lucknow, New Campus
Bachelor of Technology in Computer Science

Nov 2022 – June 2026
Lucknow, Uttar Pradesh
